

Skill Development Log

Client Name: <i>Carla Johnson</i>					
Skill to be achieved: <i>Making a cake from scratch</i>					
Date	What worked well today	What didn't work well	What could be done differently	Overall feedback	Name
<i>2/6/2023</i>	<i>Carla was able to recall without prompting to gather all the required ingredients.</i>	<i>Cracking eggs is proving a little difficult for Carla, we needed to take out a fair bit of shell from the mix.</i>	<i>Next session it would be a good idea to have Carla crack the eggs into a bowl and shell removed prior to it going into the mix. Look at rostering Carla onto breakfast on weekends to get more egg cracking practice.</i>	<i>This is Carla's third session, and she is going well. She is engaged and happy throughout the process. She asks for help when required but is picking up the skills very quickly.</i>	<i>Bianca Young</i>
