My Profile

I am a 25-year-old who previously identified as a biological male. I have lived as a gender-neutral individual since 2017.

I have epilepsy that is controlled well with medication and a mild intellectual disability. This sometimes means I can take longer to process information or understand new concepts but with time and patience I will get there.

I love socialising with my friends. I met them through a social club at my work, an op shop with multiple stores around the state. It has a social group for its LGBTQI+ employees. I enjoy doing karaoke and going to clubs with them.

I love my job and have been working there for 5 years. I can use the EFTPOS and Point of Sales machines and am excellent at organising and categorising all the clothes, books, and DVD's that come into the store. I can use the computer to record stock and send emails to other stores.

I have great communication skills and love having conversations with everyone who comes into the shop.

I live by myself and enjoy cooking and sitting in my courtyard, however I do need some support to make sure I keep things clean and tidy in the house as housework is not my favourite thing to do!

My Goals and Important Things

My Goals	<ul style="list-style-type: none"> Maintain full autonomy and choice in all aspects of life. Stay in my own home. Continue working at the Op Shop. Continue social activities with my friendship group. Maintain or improve overall health as much as possible. Be accepted for who I am. 	Timeframe to Achieve	Ongoing
